ORGANIC + FAIR + BEAN-TO-BAR

Our entire business is Fair Trade verified. We are a member of WFTO – the World Fair Trade Organization, which is the umbrella organization for global fair trade. The WFTO monitors business compliance with the 10 principles of fair trade like transparency, respect for the environment, the payment of fair prices and no use of child labor among others. For more on this, go to www.zotter.at/fair-trade and www.wfto.com

100% BEAN-TO-BAR: Zotter chocolates are produced starting from the bean in our bean-to-bar chocolate factory.

All the ingredients for the chocolate come from ORGANIC* cultivation. The number of the organic board of control serves as identifying information. ORGANIC control number: AT-BIO-402

*All our products containing **dairy** won't carry the USDA Organic Seal anymore, as there is an exemption in the organic equivalency agreement between the U.S. and the EU when it comes to the use of antibiotics. While in the U.S. an animal which has been treated with antibiotics cannot be used in the production ever again, the EU allows a certain wait time until the animal can be used again for the production of dairy. It still means our products are 100% organic certified in the EU, but they are not in the U.S..

The protection of the environment is a very important aspect of our corporate philosophy. Our environmental protection and our environmental measures are ISO 14001 and EMAS certified. EMAS-certified companies are recorded in a Europe-wide register and are regularly checked and monitored on a national level by environmental experts approved by the environment department. STORAGE ADVICE

We do not use any artificial stabilizers or preservatives. For this reason, our goods are more temperature sensitive than other high-quality chocolate products.

Ideally you should store Zotter chocolates in a cool and dry place where the temperature is between 61F and 65F.

You should not put the chocolates into a fridge. This way they would lose their substance because the humidity would let the sugar crystallize. If the temperature is too high, though, it will result in the emission of cocoa butter which will settle as a white film on the surface of the chocolate. The loss of the cocoa butter will dry out the chocolate – hence, the flavor of the chocolate will suffer.

ORGANIC SOY LECITHIN

Zotter uses lecithin exclusively from controlled organic cultivation. Organic soy lecithin is guaranteed free from genetic engineering and protects the environment because no rainforests are cleared for its cultivation.

DESIGN

Designed by Andreas H. Gratz.

We use certified paper without glossy coating and environmentally friendly colors for the packaging.

At the Zotter family business, chocolate is created bean-to-bar, from the cacao farmer directly to our in-house creative chocolate factory in the Austrian state of Styria.

CHOCOLATE

Classic Zotter – our Hand-scooped Chocolates, which we've been creating since 1992. We brush chocolate onto long sheets in order to manipulate flavors – we combine, we fuse, we let explode

My daughter Julia and I have developed many new flavors this season, with a particular focus on fruit. Our cocoa and fruit shenanigans are the latest trend!

There are around 200 employees at our chocolate factory, as well as two choco robots – our way of combining artisanal handicraft and innovation.

Our family business counts among the most sustainable businesses in Austria: we create quality products that are organic and fair, because we care about what happens to us humans and our environment. Our production is run on green energy, we use environmentally friendly packaging, we offer a free and organic restaurant menu for employees and much, much more.

We regularly travel to cacao growing regions in order to meet our cacao farmers and find new and exciting fine flavor cacao varieties. We buy this cacao direct and produce our chocolate 100% bean-to-bar. This means: from the bean to the finished product, each chocolate is created in-house at our chocolate factory, which we've also opened to the public, so our customers can experience how chocolate is made, and see (and taste) all the magical things we can create with it. We love developing new chocolates and keep innovating and carrying out more research – it's our passion.

The new season is a fruity party!

Everything is fruity! Fruity fillings, fruity marzipan, fruit as sweetener and fruit which melts into chocolate and also into praline, all featured in our latest chocolate ranges. Many new and delicious fruity miracles featuring new flavor accents and seductive colors.

We open the season with 11 new, Hand-scooped Chocolates, all with delicious fruity fillings: from pure fruit ganaches with **Strawberries** as well as fruity marzipan fillings with **Cherries & Pumpkin Marzipan**. We're also presenting quite a few new creations sweetened with fruit like **Plum & Nuts** and **Date & Cashew**, both vegan to boot.

The Squaring the Circle range presents a all-new chocolate sweetened with trendy date sugar, which is made of ground dates. For the first time, we are offering a drinking chocolate containing a sugar alternative: Cashew, sweetened with date sugar. The Labooko range features a combination of no less than five fine flavor cacaos with a very fruity aroma, in our **72% Opus 5**. When it comes to fruit, we can't of course forget our new Fruit Bars. The Balleros boast two new flavors like the **Colorful Pumpkin Seeds** and **Macadamia in Blackcurrant**.

Naturally fruity with a focus on combinations, because our customers love a huge variety. We've also developed four new product ranges. **In•Fusion:** chocolates enhanced with fruit couverture. Our basis are chocolate classics – five dark chocolates and a milk chocolate melt together with raspberries, lemon, sour cherries and more. Cacao naturally has quite a fruity aroma spectrum, and by infusing our classic chocolates with these fruity couvertures, you can experience this aroma first-hand. The new classics with an indulgent, fruity edge!

The **Cheery & Nuts** range shows us combining fruit couvertures with tender-melting pralines and enhancing them with crunchy, chopped nuts. Raspberry & Almond, Blueberry & Hazelnut, Strawberry & Cashew and several more. Cheeky & Nuts – the tender melting fruit-and-praline duo with chopped nuts.

100% ORGANIC* + FAIR + BEAN-to-BAR

Fit for the future

Josef Zotter at our cacao warehouse: each bag with cacao beans has a label listing provenance and producer.

The new Supply Chain Act (officially Supply Chain Due Diligence Act) and the Green Deal mandate a whole new set of guidelines. The Supply Chain Act obliges companies to ensure better protections of humans and the environment along their entire supply chain.

At Zotter, we have for years taken responsibility for our entire production chain down to each individual supplier. As a bean-to-bar producer, we don't buy chocolate, but instead manufacture it ourselves from cacao bean to finished product. We obtain our cacao directly from the cacao farmers – all 100% ORGANIC and FAIR TRADED. We have an official organic certification and are a member of the WFTO – the World Fair Trade Organization.

The WFTO oversees compliance with its 10 principles of fair trade like fair pay, transparency, care for the environment, no child labour and more, and regularly audits its members, as does the organic control board.

This means lots of administration and documentation – but we're happy to go along, so the world may become a more just place to live and our planet and its wonderful biodiversity is preserved.

HAND-SCOOPED CHOCOLATES • BRUSHED ON LAYER BY LAYER

Hand-scooped Chocolates

The Original

Hand-scooped is a mixture of inventiveness and manual work. The Hand-scooped Chocolates are filled chocolates. The fillings are spread on in layers on long tracks. During this process, up to 6 different layers are combined and coated all around with chocolate. By combining different ingredients such as coffee and toffee, something new is created all the time - ideally a flavor explosion.

Thanks to the wonderful compositions of taste and their unique design the Hand-scooped Chocolates have turned into a cult.

Hand-scooped chocolate bars are created layer by layer

Josef Zotter invented the hand-scooped chocolate, constructed in layers by hand. The word “scoop” also represents the innovation and creativity inherent in hand-scooped chocolate bars. A masterly combination of ingredients produces a wide variety of singularly original chocolates.

Our bean to bar chocolate, created in-house, is spread and rolled out very thinly on 15-meter tracks while at the same time, assorted fine fillings and ganaches are prepared using over 400 organic ingredients. As soon as the chocolate has cooled down, it is topped with the filling. Before the next layer is applied, it has to rest.

Depending on the recipe, this process will be repeated several times. Sometimes roasted nuts, rum-soaked raisins or fruity chocolate flakes are scattered over the layers. Lastly, a thin chocolate coating is spread on top and then, this gigantic piece of chocolate is cut into our classic 70g Zotter bars. The filling will sit for another day or two until it is finally allowed to take a chocolate bath: it is covered top to bottom with chocolate to give it our characteristic chocolate coating and then travels to the cooling tunnel and from there straight to the wrapping station where Andreas H. Gratze’s beautiful drawings await to envelop each individual bar.

Labooko

2 bars in one packaging

2 x 35g bars / some high percentage bars are 2 x 32.5g

PURE CHOCOLATE VARIETY!

Single origin chocolates, fruit bars and many more...

The Labooko range features fine flavor cacao from the best cacao growing regions in the world. Each chocolate contains a rare cacao variety with a vivid history, from the Maya cacao grown in Belize and Guatemala to Dominican cacao harvested in a nature reserve.

Cacao is a tool for environmental conservation, it thrives as a mixed crop and in the middle of the rain forest, and it also safeguards the traditional life of indigenous people as well as guaranteeing a decent income for them. Alongside the sublime chocolates, there are colorful fruit bars – their stunning hues and delicious flavors derived entirely naturally from fruit alone – and to top it off, there's a huge selection of vegan chocolate creations. We buy all raw materials in fair trade and organic quality and process them directly in-house, bean-to-bar. We roast, grind, roll and conche with great precision and develop individually processed chocolates for you.

Flavor profile

Each Labooko features a brief flavor profile on the back and an extensive one on the inside of the wrapper.

Labooko – bean-to-bar creation of a single origin chocolate

Each single origin chocolate bar contains noble and rare cacao beans from the best cacao growing regions in the world. Each variety of cacao has its own flavor profile, which we aim to tease out. The entire process – the roasting, the milling, the rolling out and even the conching time – is fine-tuned for each bean variety in order to best bring out its individual character and origin.

We produce small batches and focus on flavor diversity in order to demonstrate how exciting the world of cacao can be. Our Labookos were big winners at the Academy of Chocolate Awards in London, collecting several awards and receiving top marks in the international chocolate test.

Peru 100% (2 x 32.5g)

Dark Chocolate | Conching time: 34 hrs.

This 100% Peru chocolate presents you with a sophisticated load of cocoa. Prepare your senses of smell and taste for an experience that requires a little bit more time and patience than other chocolates. The flavor qualities of this exceptional Peru cocoa are evident in its fragrance: spicy hints of pepper and paprika as well as an expressive fruitiness are front and centre. It offers accents of nuts and wood on the palate, supported by a subtly bitter flavor and a creamy melt. A distinctly plum-flavored fruity acidity in the finish is accompanied by a pinch of salt, and the chocolate's nutty, woody character with hints of coffee and red fruit presents with a lingering charisma.

The cocoa solo: a chocolate with a 100% cocoa content – the palate will only taste cocoa and nothing else. Created with a very mild Peruvian cocoa, no added sugar or other ingredients. Just Peru – we have visited its shores many times and have grown to love and appreciate its people and its cocoa.

Fragrance notes: spicy (pepper, paprika), earthy, red fruit

Taste notes: subtly bitter, notes of nuts and wood, cream, lightly salty, plum-flavored fructose, mildly astringent finish

Madagascar 100 % (2 x 32.5g)

Dark Chocolate | Conching time: 36 hrs.

If you enjoy the berry aroma the cocoa beans from the Madagascar Sambirano valley are famous for, then our new sugar-free creation is definitely for you. The lack of sugar provides you with a huge dose of cocoa power with a fruity roast aroma. This chocolate has a very harmonious fragrance combining red berries, roasted nuts and savory baked goods. On the palate, you can initially taste roasted notes of nuts and wood. This roasty character remains and is subsequently joined by aspects of coffee and cream. The cream is flavor dominant here and has the pleasant effect of toning down the bitterness on the palate. The fruitiness indicated in the initial fragrance develops fully in the finish. The red berries like raspberries, redcurrants and lingonberries that are predominantly responsible, present a sophisticated fruity character, which is accompanied by an increasingly salty component towards the end. The finish is initiated by a subtle adjustment towards citrus notes and continues in the fructose-heavy manner, adding more astringent accents along the way. The aftertaste is intensely salty with astringent, tangy characteristics and notes of coffee.

Fragrance notes: intense notes of berries, nuts and savory baked goods, echoes of coffee and earthy tones

Taste notes: roasty notes of nuts and wood, creamy character with hints of coffee, intense berry aroma (raspberries, redcurrants, lingonberries), notes of citrus and salt

Maya Cacao 100% (2 x 32.5g)

Dark Chocolate | Conching time: 35 hrs.

Snack on a piece of Maya culture. Made with cacao from Belize and Guatemala, where the Maya, who are the originators of chocolate culture, still live and cultivate their cacao. We've visited them and we are in awe of this wonderful, unique cacao legacy.

Twenty-six different Maya dialects are spoken in Guatemala. The lifestyle there is basic and traditional. Guatemala is home to a multitude of hidden valleys where 200-year-old cacao trees still grow. They don't yield as many beans anymore, but we are championing the preservation of these heirloom varieties. There are also white cacao beans in Guatemala of legendary Criollo origin. In large part, cacao cultivation safeguards the traditional lifestyle of the Maya people.

Experience a chocolate with 100% cacao content, without any added sugar—a precious piece of authentic cacao history!

Fragrance notes: berries, cherries, mildly tropical accents

Taste notes: Spicy-nutty. An initial acidity, with notes of red fruit, spice and nuts, with a subtle finish of tannins similar to black tea

High-End 96% (2 x 32.5g)

Dark Chocolate | Conching time: 34 hrs.

The high cocoa content in this chocolate really brings out the complex and uncompromising bouquet of its Peruvian fine flavor cocoa. If you are mindful of its fragrance when you first taste it, you will detect a clear note of mint enveloped by cocoa and accompanied by subtle hints of fruit. Only a very mild bitterness is noticeable. The chocolate's initial aroma of nuts and wood is later joined, if given enough time to develop, by slightly earthy and spicy notes with a red fruit finish. It leaves a subtle bitterness on the palate, a hint of fruit and even a quite distinctly nutty flavor, which gives the impression of sugar-free caramelization. 96% cocoa enveloped by a hint of coconut blossom sugar, which is harvested by hand from the flowers of the coconut tree and which has a pleasantly caramel flavor, making it a very popular sugar alternative. Of course, the cocoa has center stage, a beautiful blend made from Peruvian cocoa beans.

Fragrance notes: mint, mix of red fruit

Taste notes: mild, wood, nuts, slightly earthy and spicy notes, red fruit, balanced and astringent finish, fruity and nutty (with a note of sugar-free caramel)

This chocolate, with its subtle fragrance combination of wood and grapes, might at first appear reserved, but that's just the initial impression. On the palate, you will notice a perfect combination of mild and full-bodied flavors right from the start. First, nutty and woody notes develop, accompanied by mild echoes of caramel and a lingering note of cream, enveloped by hints of liquorice and coffee ahead of the fruity lingonberry finish. This chocolate's rich and only mildly bitter character with notes of wood and a light fructose stays on the palate for a while.

A single origin chocolate with 90% cocoa and 10% raw cane sugar for all those who like clear lines and don't do compromises. It's created with El Ceibo cocoa — a rare bean only available in very small batches. We travelled to Bolivia, met up with the cocoa farmers and were given this unique cocoa. A rare cocoa privilege!

Fragrance notes: subtle notes of wood and fruit (hints of grape)

Taste notes: nuts, (caramelized) wood, lots of cream, a hint of liquorice, mild touch of coffee, lingonberries, woody finish, mildly astringent with a little bit of fructose

75% Tanzania

Dark Chocolate | Conching time: 15 hrs.

This is no joke: our dark Tanzania chocolate emits a fragrance that demonstrates the epitome of aroma variety. The interesting bit: the more time you allow for it to develop its character, the more in-depth you'll be able to explore it. Initially it might present you with a super spicy gingerbread explosion with nutty and creamy accents, but shortly thereafter, you'll recognize an addition: a very expressive fruity bouquet of cherries, plums and citrus accompanied by a velvety earthiness. Giving it time will allow your palate to enjoy this chocolate's impressive aroma potential even more deeply. The first flavor hit is intensely chocolatey with a pleasantly pure, cocoa-centric nature underlined by an elegant creamy note. This very distinct chocolatey character remains but is subsequently joined in a graceful manner by well-balanced notes of roasted nuts, malt and molasses. Soon after, this chocolate's unusual fruitiness shows itself. Initially there are lovely notes of citrus rounded off by an intense sour cherry aroma and the finish is still fruity and mildly tangy but leaves an aftertaste of cocoa and wood with a subtly astringent citrus quality.

Fragrance notes: spicy gingerbread accents, notes of nuts and cream, crisp notes of fruit (citrus, cherry)

Taste notes: intense chocolatey character, accents of roasted nuts, cream, malt and molasses, expressive fruity aroma (citrus, sour cherry), fruity-tangy finish

75% Sao Tome

Dark Chocolate | Conching time: 19 hrs.

A true rarity: this small, west African island is virtually unknown but boasts a long and rich cacao tradition. It is considered the cradle of west African cacao. The small farmers of the CECAQ 11 cooperative grow a unique island cacao shaped by its terroir, very chocolatey with a mild fruity flavor. At our chocolate factory, we process the cacao bean-to-bar: first we mill and roast, then sweeten with raw cane sugar, roll to its fine texture and finally the stir of the conching process. The warmth and hours of conching remove unpleasant aromas, but too much is detrimental to the finished product. At Zotter we use shorter conching times to preserve the cacao's rich character. Taste the richness in this 75% cacao single origin bar, surprisingly mild for a dark chocolate, with an excellent melt, and notes of tropical fruit..

Fragrance notes: fruity, dried apricots, Baguettes

Taste notes: very mild for a dark chocolate. Red cherries, beautiful roast aroma, good melt, notes of baguettes, slightly astringent finish

A world tour: experience a chocolatey-fruity top cuvée created with rare cacao varieties from five countries: Madagascar, São Tomé, India, Uganda and Panama.

In the famous Sambirano valley of Madagascar, a particularly fruity-caramelly cacao is grown. Another rare cacao variety with notes of red cherries hails from São Tomé, a small, barely known West African island with a long and rich cacao-growing tradition. The south of India, specifically the water-rich region of Kerala, produces the Malabar forest cacao with its intense chocolate character and an exciting fruit spectrum of cherries, plum puree, peach and watermelon. On the slopes of the mythical Mountains of the Moon mountain range in Uganda, a cacao thrives which presents with intense fruity accents and shouldn't be missed. And to top it off, there's the wonderfully fruity Cocabo cacao, cultivated in a traditional fashion by indigenous cacao farmers in the rain forest of Panama.

72% Ghana

Dark Chocolate | Conching time: 12 hrs.

This pure dark chocolate presents with such an extraordinary aroma complexity, you'll be surprised to learn that it has been created with cocoa from Ghana. Located right behind the Ivory Coast in west Africa, Ghana counts among the world's biggest cocoa producers but is mainly associated with plain consumer cocoa. This mainstream cocoa grown en masse is understandably less aromatic and much stronger in flavor. But this does not apply at all to the organic and fairly traded fine flavor cocoa we managed to source and which we can, without exaggeration, describe as a minor flavor sensation. The chocolate's fragrance is a harmonious mixture of liquorice, nutty praline and spices. Fine, fruity notes of cherries and lime caress the palate. In terms of flavor, it presents with mainly mild roasted nut and wood notes accompanied by hints of cream and liquorice. The distinct emphasis is on a lovely chocolate base layer, which is subsequently bolstered by notes of cream, biscuit and liquorice and a subtle fruitiness. All of this results in a fruity-chocolatey spectacle for the palate. Its subtle fruity accents, initially in the form of cherries, gradually turn into notes of citrus and finish with a strong and lingering grapefruit accent. This is exactly how the perfect chocolatey refreshment should be!

Fragrance notes: a mixture of liquorice, nutty praline and spices, mild notes of fruit (cherries, lime)

Taste notes: intense chocolatey, notes of cream, biscuit and liquorice, mild notes of fruit (cherries, lemons, grapefruit), fruity and subtly astringent echoes of grapefruit

70% India

Dark Chocolate | Conching time: 20 hrs

The chocolate which is used in this pure 70% dark chocolate bar was grown in an ecofriendly environment in India and combines very chocolatey cocoa power with a jammy fruitiness and elegant spice. You'll be able to detect its first-rate aroma characteristics at first smell: intense notes of sweet cherry jam accompanied by subtle hints of peach, plum and watermelon, in a harmonious alliance with well-balanced notes of marzipan and spice. Mild, earthy tones reminiscent of rainforest leaves together with fine echoes of fermentation top off this intense and fruity aroma. On the palate, you'll experience a spectacular union of robust chocolate power and lovely fruitiness. An initial brief and pure cocoa hit with a hint of green subsequently develops into a distinctly sweet chocolate character, supported by gently roasted, caramelized cashews. Mild notes of wood and condensed milk appear ahead of the fruity flavor dominating the finish. This presents with an exhilarating flush of fruit with a sustained, juicy-sweet aroma of cherry jam in combination with a subtly spicy note of plum puree as well as echoes of watermelon and peach. Towards the end, you'll be again reminded of mild roasty accents characterized by earthy notes of wood and coffee. A final organoleptic highlight awaits with a particularly mild aftertaste, leaving a residue of a barely bitter astringency and soft nuances of peach and watermelon.

Fragrance notes: intense fruity notes (lovely cherry jam, peach, watermelon), subtle accents of marzipan and spice

Taste notes: intense chocolate character, subtle roast notes (caramelized cashews), fruity accents (lovely cherry jam, plum puree, peach, watermelon)

70% Uganda

Dark Chocolate | Conching time: 9 hrs • FMR (Fine Mist Roasting)

If you like fruity single origin chocolates, then this dark Uganda chocolate is for you. You only need to smell it to experience its strong and intense fruity character: a complex, fruity mix of strawberries, blueberries, grapes and cherries with a generous whiff of fruit fermentation, which can't be ignored. Mild notes of molasses and a subtle earthiness are also present. On the palate, this chocolate's dominant fruity character commands attention. Initially, when you notice subtle hints of mint and molasses combined with notes of waffle, you might have doubts as to its fruity character. But wait. Very quickly, this chocolate's expressive notes of fruit will develop, and they will be unusually lovely and jammy. Red berries, cherries, strawberries and blueberries all have a main role, which will produce happy moments of euphoria for even the most fructose accustomed palate. Alongside, you can detect a fine base layer of fudge with lightly sweet and roasty notes. Some hints of caramel in the background enhance this full flavor experience. In the finish, it is fruity-tangy and leaves a very pleasant aftertaste carried by wood and caramel.

Dark Chocolate | Conching time: 16 hrs.

You can even still detect the fermentation of these very special cocoa beans when you smell our Togo chocolate. 80%/20% Milk Chocolate

Super Dark, no sugar added

You will be amazed at the lovely and highly interesting flavor of this milk chocolate without any added sugar. Its intense, chocolate-y fragrance with notes of nougat and cream is without parallel. The aroma profile presenting on the palate is reminiscent of waffles with a nougat centre. Its initial impression of nutty and lightly salted nougat is then replaced by roasted nuts and a main focus of subtly sweet nougat waffles. A mild, fruity character as well as light accents of milk appear in the background. Characterized by a slight waffle flavor right through the finish, it retains a milky, nutty aftertaste on the palate.

A milk chocolate with an 80% cocoa content and 20% milk — without any added sugar. 70%/30% Milk Chocolate

Dark Style, no sugar added

Similar to its bigger, no-sugar-added milk chocolate sibling, this milkier chocolate interpretation also offers an impressive nougat waffle aroma. Contrary to its 80% counterpart, this one has an additional and very prominent focus on cream. In the finish, a hint of fruit is followed by a mild and milky aftertaste.

A chocolate that dares not to be sweet. With its 70% cocoa content, this milk chocolate plays in the high-percentage, dark chocolate leagues and entirely does away with any sugary sweetness. Lots of cocoa, lots of Tyrolean mountain milk, zero sugar.

Ecuador 50% & Nicaragua 50% Milk Chocolate

Compare 2 milk chocolates with 50% cacao content. You will be amazed how different milk chocolate can taste.

50% NICARAGUA: The best milk chocolate in the world — according to the assessment of chocolate tester Georg Bernardini, who tested 2,700 products from 271 companies in 38 countries for his book, “The Chocolate Tester” (Der Schokoladentester).

According to Bernadini, “Zotter milk chocolate takes first place thanks to its harmony. It is not sweet nor is it too bitter and it melts wonderfully. The chocolate is milky-creamy but at the same time is very chocolaty with a strong cacao flavor. You can really taste the flavor of the Nicaraguan cacao. A true masterpiece.” Josef Zotter states, “I am pleased that a high cacao content, milk chocolate made the grade. I love high content chocolate because you can’t cover up any faults in the cacao flavor with sugar and milk. High content chocolates are simply honest — and I like that!”

50% ECUADOR: Throughout Ecuador, the floral character of the typical Cacao Nacional is valued. It has been grown in Manabi for a long time. Mixed crops are also grown at the Fortaleza Del Valle cooperative, which is already becoming rare in Ecuador. Here, the cacao thrives, surrounded by shading trees that protect it from Ecuador’s scorching sun. In turn, the organic cacao protects the rainforest. In this high content milk chocolate, we mix 50% floral Cacao Nacional with unrefined raw cane sugar from Paraguay, a little vanilla from the Congo and milk delivered straight from the mountain farmers of Tyrol. Experience a real cacao delight, which we have transformed into a wonderfully melting chocolate.

45% Peru

Milk Chocolate

We create this milk chocolate as a single origin chocolate with pure fine flavor cacao from Peru. We use local Peruvian Nativo cacao from Oro Verde, which is Spanish for "green gold". The Nativo cacao includes white cacao beans, a signature feature of the legendary Criollo. The small farms growing these beans belong in part to the Chanka and Awajun tribes, and they grow their cacao in the middle of the rain forest according to old indigenous traditions. These tribes are proud of their diverse cultural heritage and also of the diversity in their cacao gardens, where many other plants thrive alongside the cacao tree. This biodiversity and the co-cultivating of different plants is hugely important for cacao flavor, as each plant has an effect on the cacao, adding a broad aroma spectrum. With Oro Verde, you can distinctly feel the spirit of the indigenous people, passed down from generation to generation. We turn this amazing cacao into a delicious, sweet milk chocolate by adding sugar, genuine vanilla, and organic mountain milk from the Austrian Tyrol region.

Fragrance notes: milk, creamy caramel

Taste notes: sweet and light milk, creamy milk caramel, traces of cinnamon spice and butter biscuit, and a sweet finish of caramel with a pinch of salt

35% Panama

Milk Chocolate

Our sweetest milk chocolate distinguishes itself from all our other flavors that have a stronger cocoa content through its spicy, cinnamon-y taste. You will notice this more than with other chocolates, alongside notes of vanilla milk and caramel, even just by taking a sniff of the bar. Once you taste it, you will experience a consistent bouquet, in addition to a note of cream. This chocolate has a high cocoa butter content but comparatively little cocoa mass, so it looks more on the pale brown side and has a particularly light flavor. This is a courageous combination of milk and white chocolates with a caramel flavor, enhanced with a generous pinch of cinnamon.

A sweet single origin chocolate for even the youngest of snackers, with a 35% cocoa content, raw cane sugar, mountain milk from Austria's Tyrol region, genuine Bourbon vanilla and pure Cocabo cocoa, which is cultivated in a traditional manner by indigenous cocoa farmers under the canopies of Panama's rainforest, away from the busyness of our modern times.

You will have a similar flavor experience tasting our coconut chocolate — a delicacy that will delight not just hardcore fans of the original exotic fruit. At first smell, you will detect a natural and intense coconut fragrance. Its taste is reminiscent of a high-end coconut bonbon covered in white chocolate. And despite a complete lack of milk — this chocolate is created only with coconut milk — it is surprisingly creamy with an extremely tender melt. The finish is accompanied by mild notes of citrus and its coconut character will linger for a while, making this delicacy an unforgettable treat. A white, vegan bar with a seductive coconut flavor. We create this delicious treat with coconut milk instead of cow's milk, add fine coconut flakes and blend in pure cocoa butter, raw cane sugar and genuine Bourbon vanilla — with sunflower lecithin. Squaring the Circle

SWEET SENSATION – THE CHOCOLATES CONTAINING TRENDY SUGAR ALTERNATIVES

With our Squaring the Circle range, we are proud to present chocolates featuring today's brand-new sugar trends.

Squaring the circle isn't possible with a normal drawing compass and a ruler, but even 2.000 years ago, Archimedes solved this problem with his own mathematical formulas. The Squaring of the Circle range shows us not restricting ourselves to cacao and sugar but instead exploring new sugar trends from exciting sugar alternatives like trendy date sugar, maple sugar, coconut blossom sugar

Squaring of the circle represents the impossible, but just like in modern mathematics beyond compass and ruler, our own science of chocomatics proves that there are a multitude of solutions. This enables us to develop many new chocolates, all revolving around the hot topic of sugar.

Our diverse suaar assortment!

DATE SUGAR

COCONUT SUGAR

The Squaring of the Circle shows us making the impossible possible by replacing our ubiquitous raw cane sugar either with various sugar alternatives. This requires a very individual and precise processing flow, which is why for this particular purpose, we use our “Fine Mist Craft-Akt” roasting appliance, which we can very quickly adapt to any requirements. Freshly roasted cacao beans, pure cocoa butter and all the sugar variations that are currently trending.

Balleros are the result of our fascination with nuts and fruit. Even though they are very small, these little nuts and berries contain nature's entire blueprint for future trees – and they are tasty! Balleros contain a wide range of fruit and freshly roasted nuts, which we spin round in coating drums until they are perfectly covered in the finest chocolate. Some varieties are then shined, others are rolled in powdered fruit, sugar mixtures or our in-house produced ground coffee.

IT'S SHOWTIME FOR THIS TENDER-MELTING PRALINE AND FRUIT DUO FEATURING SOME DELICIOUS BITS OF NUT.

Colorful, homemade fruit couvertures on the outside, created by us fruit-to-bar using fruit, berries, raw cane sugar and pure cocoa butter; exquisite homemade pralines on the inside, also produced nut-to-bar by us, using freshly roasted nuts, pure cocoa butter and a little bit of chocolate. You can really taste the sublime nut quality and the high nut content. All is enhanced to a crunch with lots of chopped nuts. For fans of melting fruit and nuts.

However, there isn't a rule without an exception, and so we're also offering our caramel and peanut duo.

ORGANIC* & FAIR, because we love our planet and its breathtaking biodiversity, and want to protect it.

Fruit-to-Bar & Nut-to-Bar

We produce our colourful fruit couvertures fruit-to-bar – from the original fruit to the finished product. We use highly aromatic freeze-dried fruit, which we melt together with cocoa butter, raw cane sugar and the occasional dash of lemon. Meanwhile, we also process the very best nuts we can find, which we roast at different temperatures, according to their variety. Then we chop them up so finely that we get a liquid nut marrow and combine that with pure cocoa butter and a bit of chocolate. This is how our tender-melting praline is created, nut-to-bar, from the original nut to the bar. We then pour our fruit couverture into moulds and add the freshly made praline and lots more finely chopped nuts.

Strawberry + Cashew

Strawberry candy bar and cashew praline with cashew pieces

Fine strawberries flirting with tender cashews: on the outside, a pink strawberry couverture, smelling seductively of fresh strawberries, its stunning color derived from the berries alone, and with a refreshing dash of lemon. On the inside, a tender-melting praline made from freshly roasted cashews, which we create, nut-to-bar, at our chocolate factory. Produced in-house from the original nut to the finished product and featuring lots of crunchy bits of cashew and pure cocoa butter.

Blueberry + Hazelnut

Blueberry candy bar and hazelnut praline with hazelnut pieces

IN•FUSION

70g bar

THE WONDERFUL, FRUITY WORLD OF CACAO **Chocolate enhanced with fruit couvertures**

Inspired by flowery wine tasting notes raving about hints of cherry aroma or echoes of blackcurrants and dark berries, we thought it would be great if everyone could experience similarly fruity flavor spectacles. Our new chocolate range features chocolate classics infused with genuine fruit, so the cherry aroma will no longer remain a hint. In trade vernacular, melting together chocolate and fruit couverture is called an infusion, which subsequently leads to an aroma explosion. Cacao naturally possesses enormously varied flavor bouquets. More than 600 are known at this point, most of them fruit or citrus aromas. And we're now strengthening our cacao's natural aroma profile with fruit couverture. Experience dark and milk chocolates accompanied by raspberries, oranges, cherries, cranberries and blackcurrants. The new classics with an indulgent fruity flavor.

Created, bean-to-bar, using fine flavor cacao and freeze-dried berries and fruit!

Bean-to-Bar & Fruit-to-Bar

For our In•Fusion range, we mix up chocolate and fruit couvertures, conching them together and then pouring that delicious concoction into beautiful, round moulds. Initially, we create the bean-to-bar chocolate by roasting the very best cacao beans and crushing them, so we get small nibs. We add cocoa butter to this raw cocoa mass, then raw cane sugar and sometimes some milk. The chocolate is then ground at high pressure. We also grind our homemade fruit couverture, made using freeze-dried fruit, cocoa butter and raw cane sugar, and we then conch it together with the chocolate for several hours, but not too long, so all the sublime aroma notes are preserved. This is how a fusion of bean-to-bar and fruit-to-bar is created.

Passion Fruit + Orange in Cacao

The Big Bang of the Chocolate Culture

Xocolatl was the liquid gold of the Incas, Mayas and Aztecs.

Josef Zotter revitalises the origin of the chocolate culture and composes innovative variations of drinking chocolates that bathe in hot milk in the form of small chocolate bars.

The hot drinks are available in many varieties and colours. And in summer one can also enjoy the drinking chocolates on ice, as cold drinks.

Tip: The Choco Mix

Pour 200-300ml hot milk or your vegan drink of choice in a blender, add a bar of drinking chocolate and wait 1 minute until the chocolate starts melting. Mix it on a low setting first and finish blending with a quick blitz so you get some proper foam on it, which makes it look particularly pretty. You can decorate your drink with some milk foam.
